ROGUE®

How to Replace Fan Housing

This guide illustrates how to remove and replace the fan housing of the Rogue Rower.

🔧 **TOOLS:**
- Philips Screwdriver (1)

⚙️ **PARTS:**
- Replacement Fan Housing (1)

## Step 1 — Remove fan housing.

- Loosen the screw on the mesh ring a few turns.

- Keeping pressure on the face of the fan housing, use the Phillips screwdriver to remove the four screws.

- Remove the housing and the mesh ring.

## Step 2 — Position the mesh ring.

- On the replacement fan housing, line up the joint of the mesh ring with the corners of the housing and rower as shown in the first two pictures.

- NOTE make sure the mesh ring sits in the groove around the fan housing.

Step 3 — Replace the housing.

- NOTE make sure the mesh ring sits in the groove on the rower side of the housing.

- Line up the four corners of the fan housing with the rower side of the housing and press the replacement housing into place.

- Keeping pressure on the face of the housing, start the four screws by hand.

Step 4 — Tighten the screws.

- With pressure still on the face of the fan housing, tighten the mesh ring screw until it is snug.

- While continuing to maintain pressure on the face of the fan housing, use the Phillips screwdriver to tighten the four screws.

- NOTE do not over tighten the screws.
