MIKKO'S TRIANGLE CHALLENGE

CHALLENGE
ROGUE

Example of male final score calculation:

Echo Bike total Calories = 180 cal total / 10 (rounds) = 18 average cals per minute

Row total Calories = 222 cal total / 10 (rounds) = 22.2 average cals per minute

Ski total Calories = 154 cal total / 10 (rounds) = 15.4 average cals per minute

Final/lowest average = Ski 15.4 cals earning tier V4

Submit Your Scores:

- All scores submitting on roguefitness.com, the same webpage is used to register.
- Upload video(s) to YouTube
 - Videos must be set to public so our judges can view them
 - Sound may be turned off if there is licensed music playing in the background
 - Videos should be submitted using YouTube and the hyperlink added to the submission on roguefitness.com
- Your score will appear on the Rogue leaderboard after a judge has accepted the submission
- Scores that do not have videos evidence following all rules will be automatically rejected
- If an athlete's score is rejected, the athlete may submit another score by following the same submission process.

Judging and The T-Shirt

- After the judges have had a chance to review the submitted score, athlete's will receive a ruling email stating if their score has been accepted or rejected with a reason why.
- Once the judges accepted your scores and confirmed your status, your earned t-shirt will be processed and added to your earned store for you to redeem.
 - Athletes will receive an email once the t-shirt has become available to redeem
 - For instructions on how to access your earned store, please see the FAQ page on the Challenge website
- Rejected entries will not receive a t-shirt.
 - Competitors can submit a new score if the first score is rejected

Submitting a Second Score:

- Competitors are permitted 1 "approved"/"accepted" score per paid registration. Once the judging team accepts a score, the score is locked for that athlete
- If an athlete has an accepted score and would like to register again to attempt a different status, they may complete an additional registration by following the same steps used during their initial sign-up on roguefitness.com

FLOW:

On 3-2-1-Go the athlete will bike on the Rogue Echo Bike for one minute.

The athlete MUST get off the bike before the end of the minute and will move to the rower

The athlete will start to row on the beep for the start of the second minute and continue to row for one minute.

Before the end of the second minute the athlete MUST get off the rower and move to the Ski

On the beep starting the third minute of work the athlete will start skiing.

The athlete will continue to ski for one minute and MUST stop before the beep signaling the end of the third minute of work.

The athlete will then rest for the fourth minute, which will be the completion of round one.

The athlete can ready themselves on the echo bike ready to start round 2 but can not start until the minute interval has started.

MIKKO'S TRIANGLE CHALLENGE

CHALLENGE
ROGUE

The athlete will continue in this manner until 10 rounds of Echo Bike - Rower - Ski - Rest has been completed

- * Staying on a piece of equipment longer than the one minute interval, or starting an interval early, will be subject to judging penalties and possibly disqualification.

VIDEO SUBMISSION STANDARDS:

All video submissions should be uncut and unedited in order to accurately display the performance. Videos shot with a fish eye lens or similar lens may be rejected due to the visual distortion these lenses cause. Sound should be on during the filming. Be sure the athlete has adequate space to safely complete the movement and clear the area of all extra equipment, people, or other obstructions so that the video is clear.

The video should be shot from a 45 degree angle from the machine setup. Critical items that need to be clearly visible on the video:

1. Walk around of all machines to show they are the correct brand and have no modifications
2. Show the athlete on each piece of equipment during the workout
3. Set the rower and SkiErg to comp mode and have all machines set for 40mins.
4. Show total calories achieved on the monitor of each piece of equipment at the conclusion of the workout

Next, the athlete will need to follow the steps outlined below:

1. The submitted video should start with the entire athlete in frame stating their name, the challenge name and their targeted status.
2. The camera should then clearly show all equipment the athlete will use during their challenge attempt. All of the following must be shown:
 - Walk around of all equipment to show there are no modifications and they fit the permitted equipment list above.
3. Athlete will set the equipment monitors;
 - Echo Bike set to 40 min work
 - Rower set to comp mode and 40 min work - displaying calories
 - Ski set to comp mode and 40 min work - displaying calories
